

'Hello' Card

by Jo McKelvey

Materials:

Pearlescent cardstock
Floral Delights paper pad
Diamond Press
Kraft card
Double-sided tape
Ribbon, pearls, twine
Collall 3D glue gel
Collall All Purpose glue
Collall Tacky glue

Method:

1. Cut an 8" x 6" card blank from pearlescent cardstock.
2. Mark a mat with kraft card and layer with patterned paper. Add a strip of kraft card over this and mat that with patterned paper. Add some ribbon over this and stick to the card base.
3. Make a rectangle from kraft card and mat this with patterned paper. Add to the card with 3D glue gel.
4. Using some double-sided tape to hold into place, stick some twine to the card.
5. Stamp a bunting design out on to kraft card and emboss it. Cut the bunting out and stick to your card over the twine, using 3D glue gel.
6. Stamp a smaller bunting design onto patterned paper and cut it out. Using the end of a pencil, roll the ends, and stick into place using Tacky glue.
7. Cut the word "Hello" twice from your dies, using the Diamond Press - once in patterned paper and once in black card. Glue them together to create a shadow, and stick onto the bunting.
8. Cut 9 scallops - three of each size in contrasting card/papers - ink the edges.
9. Place them on a foam pad and, using a ball tool in the centre, begin to distort the shape. Add them together in size order, using Tacky glue.
10. Add the flowers and some ribbon to your card. Finish with pearls.
