

# Pineapple Table Runner

FINISHED SIZE - 16" x 40"

## YOU WILL NEED

- A mix of green scraps  
Around 1 metre in total
- White (background)  
1 metre
- Backing  
Half Metre
- Wadding  
18" x 42" piece or larger
- Gemini<sup>™</sup> Build-A-Block Pineapple Die set
- Gemini<sup>™</sup> die-cutting machine
- Sewing machine
- Co-ordinating thread
- Basic sewing kit

## CUTTING PREPARATION

You are making 10 blocks in total.

Cut the following pieces using the SMALL dies (for a 6" block);

- White Central Square Die x 10
- Green Inner Triangle Die x 40
- White Round 1 and 2 Die x 40 (for round 1)
- Green Round 1 and 2 Die x 40 (for round 2)
- White Round 3 and 4 Die x 40 (for round 3)
- Green Round 3 and 4 Die x 40 (for round 4)

Cut the following pieces using the MEDIUM dies (for an 8" block);

- White Round 3 and 4 Die x 40 (for round 5)
- Green Round 3 and 4 Die x 40 (for round 6)
- White Corner Die x 40 (for the outer corners)

- 1 Follow the block pattern guide to assemble your block up to round 4, pressing the seams out as you go. Once you have sewn round 4 on, use the pieces cut from the medium dies to add round 5 and 6 and the outer corners. This creates a block measuring 8 ½".
- 2 Once the block is assembled, press well all over. Make a total of 10 blocks.
- 3 Lay out your blocks in 2 rows of 5, and sew together. Press seams in opposite directions so that they nest when you sew the 2 row together. Sew the rows together and press well all over.
- 4 Make a quilt sandwich using the wadding and the patchwork table runner and baste well either using pins or Crafter's Companion Stick and Spray Adhesive for Fabric.
- 5 Quilt as desired. For simple quilting follow the seam lines in the blocks.
- 6 Once quilted trim off the excess wadding. Lay the quilted piece right sides facing on the backing fabric and smooth well all over. Pin around the perimeter and sew with a ¼" seam all the way round, leaving a 4" gap in the middle of one edge for turning.
- 7 Trim off the excess backing fabric and turn the runner right way out through the opening. Press well and hand stitch the opening closed. You can add additional quilting at this point to keep the backing fabric secure if you wish.
