Making envelopes

Using the Enveloper Pro scoreboard is very easy. Simply follow the simple six-step set of instructions below and you'll soon be making beautiful envelopes in minutes!

Before you start, you'll need to decide which size envelope you want to make, then cut the required envelope blank to size according to the chart opposite.

1. Place your paper on the board with the corner of the paper firmly against the locator point and score down the first indicated groove.

2. Rotate the paper 180 degrees and score along the same line again. Then score the remaining 2 corners on the second indicated line.

3. Fold in the 2 outside corners towards the centre.

4. Apply double sided tape along the bottom edges of the flap as indicated in the picture.

5. Fold in the bottom flap of your envelope and press down to secure the tape.

6. To add the finishing touch, on some of the sized envelopes you can tuck the top flap in as shown.

To line your envelope

Once you've completed your card, then why not try adding the finishing touch with an envelope liner? A liner will make your envelope look even more luxurious and expensive!

To get started, take a sheet of co-ordinating paper which is at least the same width as your envelope and long enough to fill the desired space. Place your envelope over top of the paper and trace around it.

1. Cut around the lines, and then trim an extra 2mm from each side.

2. Position your inner inside the envelope to check for size.

3. If you are happy with the fit, then remove the inner and apply tape to your inner and position back in the envelope.

The chart below gives you the instructions you need to create standard size envelopes, such as C6, C5 and DL, along with instructions for some more unusual envelope sizes!

Featured card: C6 envelope

to fit an A6 card (A4 folded into quarters)

Paper size **21cm x 21cm**

use lines **B & D**

To create a sheet of paper 21cm by 21cm, take a sheet of A4 paper and cut a strip 9 cm from the bottom.

Use the diagram for reference (not drawn to scale)

Featured card: C5 envelope

to fit an A5 card (A4 folded in half)

Paper size **28cm x 28cm**

use lines **D & E**

To create a sheet of paper 28cm by 28cm, take a sheet of A3 paper and cut two strips - 14 cm from the bottom and 2 cm from the side.

Use the diagram for reference (not drawn to scale)

Featured card: DL envelope

to fit an A6 card (A4 folded into quarters)

Paper size **24.5cm x 24.5cm**

use lines **B & E**

To create a sheet of paper 24.5cm by 24.5cm, take a sheet of A3 paper and cut two strips - 17.5 cm from the bottom and 5.5 cm from the side.

Use the diagram for reference (not drawn to scale)

5" square envelope

to match 5" square card from the Top Score multiboard

Paper size **21cm x 21cm**

Use lines

C & C

Mini-slim envelope

to match mini-slim card from the Top Score multiboard

Paper size **21cm x 21cm**

Use lines

B & D1

4" square envelope

to match 4" square card from the Top Score multiboard

Paper size **17cm x 17cm**

Use lines

B & B

Notelet envelope

to match notelet card from the Top Score multiboard

Paper size **17cm x 17cm**

Use lines

A1 & C

Mini square envelope

Ideal for scrapbooking tags or for mini notelets

Paper size **10cm x 10cm**

Use lines

A & A

Mini oblong envelope

Ideal for scrapbooking tags or for mini notelets

Paper size **11cm x 11cm**

Use lines

A & A1

ATC envelope

To fit an ATC card

Paper size **12cm x 12cm**

Use lines

A & A1

6" square envelope

to match 6" square card from the Top Score multiboard

Paper size **24.5cm x 24.5cm**

Use lines

D & D

Slimline envelope

To fit A5 folded in half lengthways (7.5cm x 21cm)

Paper size **22.5cm x 22.5cm**

Use lines

E & A1

7" x 5" envelope

To fit specialised cards

Paper size **24.5cm x 24.5cm**

Use lines

D1 & C

7" x 4" envelope

To fit specialised cards

Paper size **24.5cm x 24.5cm**

Use lines

E & C

6" x 3" envelope

To fit specialised cards

Paper size **21cm x 21cm**

Use lines

D1 & B

Crafter's Companion THE ENVELOPER^{pro.}

The perfect companion for
THE ENVELOPER^{pro.}

TOP SCORE^{multiboard}

Perfect cards and boxes every time!

With the ability to make over 15 different cards, and every shape and size box imaginable, this really is a fantastic scoring tool for crafters!

Just decide which size card you'd like to make and look at the markings on the scoreboard to determine the line you need. Then take a piece of cardstock and place it onto the board. Using a bone folder or the provided tool, score along the desired line.
